

FRAMED GICLEE

Our giclée prints are carefully mounted on durable wood backing, and perfectly finished in a 1.5 inch thick woodgrain frame. Frame colors include black, farmhouse gray and white.

STRETCHED CANVAS

Our stretched canvas are created with only the highest standards. We use quality inks and canvas, along with our in-house Mimaki printers. Each piece of art is hand cut and stretched over a 1.5 inch thick wood frame for hanging.

WOOD PLAQUE

Our wood plaques start off as high quality lithograph prints that are mounted on durable 0.5 inch thick MDF wood. Each piece is hand finished and comes with a fresh layer of foil on the sides to give it a crisp clean look.

WALL ART FORMATS

All art arrives ready to hang.

Hang canvas securely with two wide head nails or screws.

Be sure the screws are level, then hang the canvas so that the screws are under the canvas stretcher bar.

front view

Canvas stretcher bar will sit on top of the screws.

side view

Hanging hardware not included. Basic nail/screw required.

On the back of the plaque is a pre-drilled slot with two circular openings.

Place a wide head nail or screw in the wall, then place one of the openings over it.

Then simply use the slot to move and center the plaque.
